

Md Abdul Latif Sumon

Kaliganj, Bangladesh • +880123456789 • sumon@example.com

FORMATION

Jan 2017	Dhaka University B.Sc. in Computer Science Computer Science Relevant coursework: Data Structures (complexity analysis, algorithm design), Algorithms (sorting, searching, graph algorithms), Machine Learning (supervised, unsupervised learning, neural networks), Database Systems (SQL, normalization, indexing techniques), Operating Systems (process management, memory management), Computer Networks (protocols, network security, TCP/IP)	Dhaka, Bangladesh
----------	---	-------------------

EXPÉRIENCES PROFESSIONNELLES

Since Aug 2021 1 yr 6 mo	Tech Solutions Ltd. Software Engineer - Developed robust backend APIs using Python and FastAPI for scalable web applications, enhancing data processing efficiency and integration capabilities, with coordination of multidisciplinary teams and cross-project management... - Implemented CI/CD pipelines with GitHub Actions, automating deployment processes and reducing manual intervention by 40%, ensuring seamless software delivery, with coordination of multidisciplinary teams and cross-project management... - Optimized complex database queries, achieving a 30% reduction in load time, improving application performance and user experience significantly, with coordination of multidisciplinary teams and cross-project management...	Dhaka, Bangladesh
-----------------------------	--	-------------------

LANGUES & COMPÉTENCES

- Language:** English (fluent), Bengali (native)
- IT:** Python (advanced, libraries: NumPy, Pandas, Flask), FastAPI (intermediate, RESTful API development), SQL (intermediate, query optimization, database design), GitHub (version control, collaboration), Docker (containerization, deployment), Jenkins (automation, continuous integration), Linux (system administration, shell scripting), HTML/CSS (web development basics)

ACTIVITÉS & CENTRES D'INTÉRÊT

- Mentored students in Python programming and project development, focusing on coding standards, project management, and collaborative problem-solving, enhancing their technical skills and teamwork abilities...
- Participated in local hackathons, developing innovative solutions under time constraints, fostering creativity and rapid problem-solving skills...
- Active member of a tech community group, organizing workshops and seminars on emerging technologies, contributing to knowledge sharing and professional networking...
