thanks.

Me Feb 11, 1:55 AM
welcome.

dvlp_studio Feb 12, 12:19 PM
Please update me. Email has been down for weeks

Me Feb 12, 12:35 PM
No worries,I will give you an update.

Me Feb 13, 11:25 AM
Your mail service is now fully operational; you can go ahead and test it. I am currently checking the Google Login feature as well. I will ensure that Google Login is working perfectly on your site very soon.

dvlp_studio Feb 13, 1:07 PM
It's still not working. I really don't see what's taking so long. Can you escalate the issue and find someone who can adjust the mx records correctly and soon. I need this fixed today. We've been dealing with this for a month now

1000022691.... (256.88 kB)

Me Feb 13, 1:08 PM
let me check again

dvlp_studio Feb 13, 2:19 PM
I fixed it myself. Please dont touch his MX records and make sure the remaing site and all connections are working. Also send me a thorough user guide on how to use the site and make edits if needed.

Me Feb 13, 2:49 PM
Okay.

dvlp_studio Feb 18, 2:20 AM
HELLO..what is the deal. This is not good business. I asked you to do stuff and since you got paid, you are no longer responsive. I had to go in and fix stuff myself! Please provide an update on if all the connections and setup are complete. LEAVE MX RECORDS ALONE AS I ALREADY FIXED THIS. Provide a thorough and complete user guide for us to use and manage the site. Also, there are edits here that were supposed to be completed a long time ago and have not been fixed.
https://www.bugherd.com/projects/494142/kanban
There are 14 total items in the Backlog and To-Do columns so please update those and leave comments on what was done. LETS COMPLETE THIS SO WE CAN CLOSE THIS PROJECT OUT

Me Feb 18, 2:34 AM
Thank you for your message. I understand your concerns and I'm on it. I'll review all pending items, verify the site connections (leaving MX records untouched), and prepare a thorough user guide. I'll share a full update with comments on the Bugherd tasks as soon as possible.
Thank you for your patience.

dvlp_studio Feb 20, 12:57 AM
Hello. Nothing has been done since we last talked. No updates have been provided. STOP GIVING ME THESE RESPONSES AND NOT DOING ANYTHING! I paid for the service and you are not providing the completed work. I do not want to leave a negative review because I want to have a long term relationship but you are making it hard. Please finish the job!!

Me Feb 20, 1:59 AM
I sincerely apologize for the delay and understand your frustration. I take full responsibility for the lack of updates. I'm prioritizing this immediately and will review all pending items, complete the remaining edits, and leave comments on each Bugherd task today. I'll also prepare a thorough user guide as requested.

You will receive a full update once everything is completed so we can close the project properly. I appreciate your patience and your willingness to maintain a long-term working relationship.

dvlp_studio Feb 20, 11:35 AM
Thank you. I hope this time is true and I'll be looking for your response soon

Me Feb 20, 11:39 AM
Thank you . I'll get back to you as soon as possible.

Me Feb 22, 12:54 PM
Hello,

I want to give you a clear progress update.

Regarding the issues you shared in BugHerd, some items have already been fully resolved. Several others are currently being finalized and reviewed, and the remaining points are being carefully checked to ensure everything is handled properly and accurately.

Regarding the Team section, here is my understanding:

We will include Founder & CEO (with your photo and name), Marketing Director – "This could be you!", and Senior Developer – "This could be you!".

I've received two of the photos thank you. I just need the remaining photo to complete the section correctly.

Once I receive it, I will finalize the Team section immediately. After completing this section, I will provide another detailed update outlining the overall progress.

I'm focused on resolving everything properly and moving this forward smoothly.

dvlp_studio Mar 02, 3:21 AM
I see some items have been resolved and some are being worked on. Thank you. It seems though like things have stopped progressing and we would still like the remaining items closed out. As far as the images are concerned, please just use a place holder and put instructions in the user manual on how to edit that section. What is the update on the user manual? Can we provide a date this week when everything will be completed and turned over to me? Thank you

Me Mar 02, 3:39 AM
Thank you for the update.

I'll finalize all remaining items, use placeholders for any missing images, and include clear instructions in the user manual.

I will provide a full completion and turnover of the site, including the user guide, by the end of this week.

dvlp_studio Mar 09, 11:49 PM
Any update. It was due last week.

Me Mar 10, 12:07 AM
I'll update you as soon as possible

Me Mar 11, 3:55 AM
Hello DVLP,

First of all, I sincerely apologize for the delayed response and for not providing an update recently.

Tomorrow we will share a detailed update outlining the fixes and improvements we have completed on your project. Once the update is shared, please review the changes from your side.

If you notice anything that needs adjustment or have any feedback, feel free to let us know. We'll be happy to assist.

Thank you for your patience.

Me Mar 11, 8:45 PM
Hello Dvlp,

We have fixed most of the reported issues. You can now test the site from your side, and if you face any errors or bugs, please let me know and I will fix them as soon as possible

However, there are a few items in BugHerd that need clarification or would require additional development:

Issue #11
These sections are currently placeholders and not connected to real dynamic data. To display actual information, we would need to build custom logic to handle different subjects since they can vary. This would require additional development time and would be considered a new feature. Most websites keep these static, which is why we implemented them this way initially. For now, I suggest keeping them as they are.

Issue #33
Changing this field to a ZIP code would require integrating a map API that retrieves location details based on the ZIP code. This would be a completely new feature and could add additional complexity. It may be more efficient to keep the current format of selecting a country and city.

Issue #47
Could you please clarify what you mean by "test"? If you mean that teachers should complete some type of evaluation, this would require building a new feature where results are evaluated and processed through the admin panel. This would involve a separate workflow and additional development.

I have deployed the site on Vercel, so you can test it now. If you encounter any issues, please let me know and I will try to resolve them immediately. Once everything is confirmed and working properly, we can deploy it to the actual domain.

Thank you.

dvlp_studio Mar 12, 10:12 AM
Please deploy everything to the live site

dvlp_studio Mar 12, 10:12 AM
Also, where is the user manual? That is the most important thing at the moment.

Me Mar 12, 10:16 AM
I will update you.

Me Mar 12, 7:14 PM
Hello,

I hope you're doing well.

I have successfully integrated the Str_ipe Public and Secret keys you provided. However, the pa_yment system is not yet fully functional because we are missing the Webhook Signing Secret.

Why is this needed?
The Webhook key allows Str_ipe to communicate with our server. Without it, our system won't know when a pa_yment is successful, meaning it cannot automatically update orders or grant acc_ess to users after they p_ay.

How to get the Webhook Signing Secret:

Log in to your Str_ipe Dashboard.

Go to Developers (top right) > Webhooks (left sidebar).

Click on "Add endpoint".

Select events: Please select "Select all events" or at least checkout.session.completed and payment_intent.succeeded.

After saving, click on the newly created endpoint.

Under the "Signing secret" section, click "Reveal" and send me the code starting with whsec_.

Once I receive this key, the pa_yment system will be live and fully automated.

Thank you for your cooperation!

dvlp_studio Mar 12, 7:59 PM
What about the user manual

Me Mar 12, 8:41 PM
Will update you

dvlp_studio Mar 13, 2:35 AM
what does that mean. I was supposed to recieve that last week and need it asap. We

Me Mar 12, 8:41 PM
Will update you

dvlp_studio Mar 13, 2:35 AM
what does that mean. I was supposed to recieve that last week and need it asap. We have people that have been waiting for months on how to access and use the site. This is very urgent!

Me Mar 13, 3:47 AM
I understand the urgency. I'll prepare the user manual and send it to you as soon as possible.
