FORMATION

expected 2023	Daffodil International University BSc in Computer Science & Engineering Dean's List Relevant coursework: Data Structures and Algorithms (advanced methods, practical case studies), Database Systems (SQL, NoSQL, advanced methods, practical case studies), Software Engineering (Agile, Scrum, advanced methods, practical case studies), Operating Systems (advanced methods, practical case studies), Computer Networks (advanced methods, practical case studies), Artificial Intelligence (advanced methods, practical case studies)	Dhaka, Bangladesh
---------------	---	-------------------

EXPÉRIENCES PROFESSIONNELLES

Since Feb 2022 20 months	Tech Solutions Ltd Backend Developer - Developed scalable backend solutions using FastAPI for a leading tech firm, optimizing API response times by 30% through efficient database indexing and query optimization, with cross-functional team coordination... - Implemented Docker-based microservices architecture, enhancing deployment efficiency and reducing server downtime by 15% with automated CI/CD pipelines, involving cross-team collaboration and project management... - Collaborated with cross-functional teams to integrate PostgreSQL databases, ensuring data integrity and improving transaction processing speeds by 25%, with strategic planning and execution..., avec coordination d'équipes pluridisciplinaires et gesti	Dhaka, Bangladesh
Jan 2021 12 months	Innovatech Ltd Junior Backend Developer - Assisted in the development of RESTful APIs using Python, contributing to a 20% increase in application performance by optimizing code and implementing best practices, with team collaboration and project oversight... - Participated in code reviews and debugging sessions, enhancing code quality and reducing bug incidence by 10% through rigorous testing and peer feedback, with collaborative team efforts..., avec coordination d'équipes pluridisciplinaires et gestion d - Supported the migration of legacy systems to modern frameworks, improving system reliability and reducing maintenance costs by 15%, with strategic planning and execution..., avec coordination d'équipes pluridisciplinaires et gestion de projets transv	Dhaka, Bangladesh
Jun 2020 6 months	NextGen Solutions Intern Software Engineer - Contributed to the development of a web-based application, gaining hands-on experience in Python and SQL, and improving user interface responsiveness by 20%, with collaborative team efforts..., avec coordination d'équipes pluridisciplinaires et gesti - Conducted research and analysis on emerging technologies, providing insights that informed strategic decisions and led to the adoption of new tools, with cross-functional team collaboration..., avec coordination d'équipes pluridisciplinaires et gesti - Assisted in the documentation and testing of software solutions, ensuring compliance with industry standards and enhancing overall product quality, with strategic planning and execution..., avec coordination d'équipes pluridisciplinaires et gestion d	Dhaka, Bangladesh

LANGUES & COMPÉTENCES

- Language:** Bangla (native), English (professional)
- IT:** Python (advanced), FastAPI (advanced), PostgreSQL (intermediate), Docker (intermediate), Git (intermediate), Linux (intermediate), RESTful APIs

ACTIVITÉS & CENTRES D'INTÉRÊT

- Open Source Contributor (contributed to multiple projects on GitHub, enhancing community tools and libraries)
- Competitive Programming (participated in national and international contests, honing problem-solving skills)
