

Md Abdul Latif Sumon

Kaliganj, Bangladesh • +880123456789 • sumon@example.com

FORMATION

Jan 2017	Dhaka University B.Sc. in Computer Science Computer Science Relevant coursework: Data Structures (algorithms, complexity analysis), Algorithms (design, optimization techniques), Machine Learning (supervised, unsupervised learning), Database Systems (SQL, normalization, indexing), Operating Systems (process management, memory allocation), Computer Networks (protocols, network security)	Dhaka, Bangladesh
----------	--	-------------------

EXPÉRIENCES PROFESSIONNELLES

Since Aug 2021 1 yr 6 mo	Tech Solutions Ltd. Software Engineer - Developed backend APIs using Python and FastAPI for a scalable web application, enhancing system efficiency and user experience through robust architecture and modular design, with coordination of multidisciplinary teams and project management... - Implemented CI/CD pipelines with GitHub Actions, automating deployment processes, reducing manual efforts by 40%, and ensuring consistent code quality across development stages, with coordination of multidisciplinary teams and project management... - Optimized database queries, reducing load time by 30% through advanced indexing, query restructuring, and performance tuning, significantly improving application responsiveness, with coordination of multidisciplinary teams and project management...	Dhaka, Bangladesh
-----------------------------	---	-------------------

LANGUES & COMPÉTENCES

- Language:** English (fluent), Bengali (native)
- IT:** Python (Advanced, libraries: NumPy, Pandas), FastAPI (Intermediate, RESTful API development), SQL (Intermediate, query optimization, indexing), GitHub Actions (CI/CD automation), Docker (containerization, deployment), Linux (system administration, shell scripting), Git (version control, branching strategies), Jenkins (continuous integration)

ACTIVITÉS & CENTRES D'INTÉRÊT

- Mentored students in Python programming and project development, focusing on algorithmic thinking, code efficiency, and real-world application design, impacting over 50 students annually...
- Participated in local tech meetups and hackathons, contributing to collaborative projects and expanding professional network...
- Engaged in continuous learning through online courses and certifications in advanced programming and software development methodologies...
