

Md Abdul Latif Sumon

Kaliganj, Bangladesh • +880123456789 • sumon@example.com

FORMATION

Jan 2017	Dhaka University B.Sc. in Computer Science Relevant coursework: Data Structures (complexity analysis, algorithm design), Algorithms (sorting, searching, graph algorithms), Machine Learning (supervised, unsupervised learning, neural networks), Database Systems (SQL, normalization, indexing techniques), Operating Systems (process management, memory management), Computer Networks (protocols, network security, TCP/IP)	Dhaka, Bangladesh
----------	---	-------------------

EXPÉRIENCES PROFESSIONNELLES

Since Aug 2021 1 yr 6 mo	Tech Solutions Ltd. Software Engineer - Developed robust backend APIs using Python and FastAPI for scalable web applications, enhancing data processing efficiency and integration capabilities, with coordination of multidisciplinary teams and cross-functional project management... - Implemented CI/CD pipelines with GitHub Actions, automating deployment processes and reducing manual intervention by 40%, ensuring seamless software delivery and enhancing operational efficiency across development cycles... - Optimized complex database queries, achieving a 30% reduction in load time, improving application performance and user experience significantly, with strategic use of indexing and query optimization techniques...	Dhaka, Bangladesh
-----------------------------	--	-------------------

LANGUES & COMPÉTENCES

- Language:** English (Fluent), Bengali (Native)
- IT:** Python (Advanced, libraries: NumPy, Pandas, Flask), FastAPI (Intermediate, RESTful API development), SQL (Intermediate, query optimization, database design), GitHub (version control, collaboration), Docker (containerization, deployment), Jenkins (automation, continuous integration), Linux (system administration, shell scripting), HTML/CSS (web development basics)

ACTIVITÉS & CENTRES D'INTÉRÊT

- Mentored students in Python programming and project development, focusing on coding standards, project management, and collaborative problem-solving, enhancing their technical skills and team collaboration...
- Participated in local hackathons, contributing to innovative solutions in software development and gaining insights into competitive programming and teamwork...
- Engaged in community tech workshops, delivering sessions on emerging technologies and best practices in software engineering, fostering knowledge sharing and professional growth...
