## FORMATION

|      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                   |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| 2019 | <b>Daffodil International University</b><br><b>BSc in Computer Science &amp; Engineering</b><br>Dean's List<br>Computer Science<br>Relevant coursework: Data Structures and Algorithms (méthodes avancées, études de cas pratiques), Database Systems (méthodes avancées, études de cas pratiques), Operating Systems (méthodes avancées, études de cas pratiques), Software Engineering (méthodes avancées, études de cas pratiques), Computer Networks (méthodes avancées, études de cas pratiques), Web Development (HTML, CSS, JavaScript) (méthodes avancées, études de cas pratiques) | Dhaka, Bangladesh |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|

## EXPÉRIENCES PROFESSIONNELLES

|                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                   |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------|
| Since Feb 2022<br>20 months | <b>Tech Solutions Ltd</b><br><b>Backend Developer</b> <ul style="list-style-type: none"><li>Developed scalable backend systems for e-commerce platforms using Python and FastAPI, enhancing system performance by 30% through optimized code and database queries..., avec coordination d'équipes pluridisciplinaires et gestion de projets transverse</li><li>Implemented RESTful APIs for client applications, integrating with PostgreSQL databases, ensuring data integrity and security through rigorous testing and validation processes..., avec coordination d'équipes pluridisciplinaires et gestion de projets</li><li>Collaborated with cross-functional teams to design microservices architecture, utilizing Docker for containerization, improving deployment efficiency and reducing server downtime..., avec coordination d'équipes pluridisciplinaires et gestion de proje</li></ul> | Dhaka, Bangladesh |
| Jun 2021<br>6 months        | <b>Innovative Web Apps</b><br><b>Software Engineer Intern</b> <ul style="list-style-type: none"><li>Assisted in developing web applications using Django framework, contributing to the design and implementation of user authentication and authorization features..., avec coordination d'équipes pluridisciplinaires et gestion de projets transverses</li><li>Participated in code reviews and debugging sessions, enhancing code quality and application performance, resulting in a 15% reduction in bug-related issues..., avec coordination d'équipes pluridisciplinaires et gestion de projets transverses</li><li>Conducted research on emerging web technologies, providing insights and recommendations for technology stack improvements and potential integration opportunities..., avec coordination d'équipes pluridisciplinaires et gestion de projets transverses</li></ul>         | Dhaka, Bangladesh |
| Jan 2020<br>16 months       | <b>NextGen Solutions</b><br><b>Junior Backend Developer</b> <ul style="list-style-type: none"><li>Supported the development of backend services for mobile applications, focusing on API development and database management with PostgreSQL..., avec coordination d'équipes pluridisciplinaires et gestion de projets transverses</li><li>Optimized existing codebase for performance improvements, achieving a 20% increase in application response times through efficient algorithm implementation..., avec coordination d'équipes pluridisciplinaires et gestion de projets transverses</li><li>Collaborated with senior developers in the migration of legacy systems to modern architectures, utilizing Docker for seamless deployment and scalability..., avec coordination d'équipes pluridisciplinaires et gestion de projets transverses</li></ul>                                         | Dhaka, Bangladesh |

## LANGUES & COMPÉTENCES

- Language:** Bangla (Native), English (Professional)
- IT:** Python (Advanced), FastAPI (Advanced), Django (Intermediate), PostgreSQL (Intermediate), Docker (Intermediate), Git (Intermediate), Linux (Intermediate)

## ACTIVITÉS & CENTRES D'INTÉRÊT

- Open Source Contributor (contributed to Python libraries, enhancing functionality and fixing bugs)
- University Programming Club Member (participated in coding competitions and hackathons)
